NEWSPAPER ADS

Microf has created a library of newspaper ads to explain to your customer the simple way to replace their new HVAC system with our lease purchase solution. These ads are available in multiple standard sizes.*

MAGAZINE ADS

Magazine is one of the few mediums that allow smaller companies to level the playing field against the bigger guys. With the four color, creative ads that Microf is providing, your company’s brand will stand out.*
DIGITAL ADS

The Internet is the “stickiest” place to have an ad. Digital ads are the new media for reaching all ages. People spend more time on-line and we must go where the eyeballs are.*

BILLBOARD

Outdoor advertising is the only type of media that has constant exposure. No other type of advertising allows your message to be displayed 24 hours a day, seven days a week. Repetition is also extremely helpful when you are trying to increase your product awareness, or when you simply want to get your message across to millions of people. This can easily be accomplished with billboard campaigns. Microf has provided billboard art.

RADIO

Radio plays an important role in building brand awareness. The frequency in which it delivers your company’s message allows for a strong name recognition. Microf has created an assortment of :30 radio scripts. Some that can be tagged and others with a “donut” which allows for inserted personalized company content. See radio scripts for sample formats.

*These ads are in standard sizes and allow for co-branding.
